# Security Patch for SambaCry on RHEL 6.2, 6.4 and 6.5 systems

Technical Information

ROHDE & SCHWARZ

This patch is provided as a compressed TAR file. During this procedure your system will be updated to Samba version 4.2.10.

The file contains a repository that needs to be integrated locally into your operating system. For the installation the following steps need to be executed:

1. Save TAR ball in folder "/usr/local/src".

2. Open Terminal window and change to folder "/usr/local/src".

3. Uncompress TAR ball with:
   `tar xvfz SambaCryFix_RHEL6.tgz`
   → This command creates a subfolder "/usr/local/src/SambaCryFix_RHEL6".

4. Change folder:
   `cd /usr/local/src/SambaCryFix_RHEL6`

5. Start the contained shell script for installing the Samba Cry Patch.
   `./SambaCryFix_RHEL6.sh`
   →After finishing the installation, the following message will be visible:
   `"Please try to get access via Windows-Explorer to your shares. Furthermore please take a look to SANREMO if it is installed on your system."`

6. Check via Windows Explorer if the Samba share is available again.
   On Spycerbox systems with installed SANREMO software, check as well if it is possible to start and stop the Samba service.
   Note: The access on a Samba share in share mode is not available under Samba 4.x. In older versions it was possible to get access without entering any credentials. Due to this it might be needed to enter them at before accessing the shared folder. They are similar to the standard credentials of our systems.

Rohde & Schwarz

The Rohde & Schwarz electronics group offers innovative solutions in the following business fields: test and measurement, broadcast and media, secure communications, cybersecurity, radiomonitoring and radiolocation. Founded more than 80 years ago, this independent company has an extensive sales and service network and is present in more than 70 countries.

The electronics group is among the world market leaders in its established business fields. The company is headquartered in Munich, Germany. It also has regional headquarters in Singapore and Columbia, Maryland, USA, to manage its operations in these regions.
